

HNR Green Team Goes Gold

On 19th January 2010, staff from HNR's Green Team will be presented with the Gold Standard of the Certificate of Development by the Cambridgeshire Travel for Work Partnership (TfW).

This award signifies the dedication and commitment of the Green Team in producing a workplace travel plan, which encourages HNR staff to use more sustainable modes of travel when possible such as car sharing, public transport or cycling.

The Gold Standard recognises that HNR has done as much as possible to ensure that their travel plan will succeed. Commenting on the Green Team's achievement the TfW said that, "The travel plan clearly shows how the objectives and targets are going to be met through linked actions. The availability of personalised travel planning service for business trips is commendable. So too is linking the home postcode maps to a car sharing breakfast event."

Speaking on behalf of HNR's Green Team, Stephen Young said, "The HNR Green Team is very committed to encouraging employees to use more sustainable modes of travel, and we are really pleased to be awarded the Gold Standard of the Certificate of Development award from TfW for our workplace travel plan".

Next year, HNR hopes to build on the travel plan and introduce more new initiatives - watch this space!
